Ultra manoeuvrable, ultra versatile Gas 24"/28" makes straightline maintenance a breeze

When you want to switch from 24" polishing to 28" burnishing you can do it all on the one machine with the remarkable Gas 24" / 28".

The Gas 24" is readily changed to a 28" configuration by replacing the head, pad, pulleys and skirt. Its two units in one - no need to have another machine to cover the bigger jobs!

Designed specially for areas where speed is critical, Gas 24"/28" delivers the high productivity results you need.

Smooth operation makes creating and maintaining that 'wet look' shine easier and faster than you thought possible.

Feature - packed

This machine has it all:

Key electric start ...fires up every time!

Fully controllable clutch - eliminates problems with marking the floor on start-up

Proven Polivac 'Poliflow' single stage vac system with heavy-duty metal impeller

Simply designed to be simply reliable ...and serviced faster

The 60 cm base and belt drive system makes for easy access to the belt, drive pulley and vacuum inlet. Reduced labour costs. Longer life.

Adjustable contoured handle with safety triggers

Ensures correct posture and reduced fatigue. Smoother, more comfortable operation, longer.

Contour-following system for an even finish

Consistent, maximum floor contact is achieved with the flexible pad holder. The pad constantly follows the contours of the floor surface, ensuring a smooth, dust-free floor every time.

Ultra-reliable Honda or Kawasaki V-Twin Power

The 17 horsepower Kawasaki motor or the 15 horsepower Honda ensures consistent power delivery to the pads for an even, patch-free finish.

Over 120 Distributors in Australia, New Zealand and worldwide

Every Polivac product is backed by a national and international network, so you can be confident of service, repairs or parts supply being turned around ...fast!

Your Authorised Polivac Distributor:
