T20

NRV200-22 NRV200T-2

The 200 series has all the many features of the Henry design with full professional Twinflo' power and performance; Hi-Lo operation; Tritex filtration but with the addition of our extended commercial 12.5 metre cable rewind and storage system.

There are two variations of this model, the 200 with its full range of standard accessories and the 200T, TurboElectric, with its own unique 24 volt floating power brush system adjusting automatically to varying floor surfaces. The ideal choice for extensive carpet care.

Whichever of the 200s suits your specific needs you can be sure of excellent professional results.

Character faces as standard. Also available 115V/120V specification.

A1

NRV380-22

NRV370-22

NRV370-22 NRV380-22

Professionals being exactly that, take the time to consider each and every feature of a machine in making their preferred choice and this decision-making is even more pronounced in the NRV-370 and 380 series which, by virtue of being 66% greater in capacity, will end up working longer hours... day in day out.

The NRV-370 is the big brother to the NRV-200 with the same superb Twinflo' power and performance; Hi/Lo operation; 12.5-metre cable system, but with an additional 66% capacity... a full commercial standard.

The NRV-380 is the smallest model in our range to be supplied with its own Structofoam container... this, in itself, is warranted for 3 years and can take a beating 24 hours a day if necessary. Structofoam is an exclusive Numatic formulation providing unrivalled strength and impact qualities, without suffering a weight penalty and used extensively throughout our bigger machines.

Two machines... both 15 litre capacity; one truly professional and one heavy-duty professional... the choice is yours.

NRV370-22

NRV380-22

| Motor | Power | Airflow | Suction | Capacity | Range | Weight | Dimensions |
|-------|--------------------|----------|---------|----------|-------|----------------------------|----------------------|
| 1200W | 230V AC 50/60Hz | 45 L/sec | 2600mm | 15L | 31.8m | 370 = 7.5Kg 380 = 8.6Kg | 355 x 355 x 465mm |

NRV370 face as standard, NRV380 supplied with our exclusive, easily applied face. Also available 115V/120V specification.

NVP180-2

The NVP-180 is designed as the most compact model within our commercial range yet totally without compromise.

Twinflo'

Full Twinflo' professional power; Tritex filtration; 10-metre plugged replaceable cable; big 8 litre capacity, small in size, light in weight, but big in performance.

There is only one control... the On/Off switch... but once selected you will have power in abundance for continuous commercial operation.

The unique caddy top is simply brilliant and so practical, somewhere for the cable, your tools and even a duster and polish, right where you need them, when you need them, each and every time.

Accessories are everything that is required to a professional standard, right down to the convenient microlight aluminium tube set and full size combination nozzle.

This is commercial cleaning just as it should be... simple but sound.

| Motor | Power | Airflow | Suction | Capacity | Range | Weight | Dimensions |
|-------|--------------------|----------|---------|----------|-------|--------|----------------------|
| 1200W | 230V AC 50/60Hz | 45 L/sec | 2600mm | 8L | 26.8m | 5.8Kg | 340 x 340 x 350mm |

Character faces as standard. Also available 115V/120V specification.

NPH1

NVP370-2

NVP200-2

NVP200-2 NVP370-2

Two machines both of the same professional design concept but providing a choice of 9 litre or 15 litre capacity.

In the first instance the specification is to the highest standard... a full two-stage Twinflo' motor providing superb long life performance; Tritex filtration; the Nucable 10-metre plugged cable system allowing easy replacement in the event of accidental damage... all in all a high performance, thoroughly practical design.

The unique caddy top makes sound common sense... somewhere for the cable and, during operation, somewhere for the small tools, a duster and perhaps polish, always there when you need it.

Both the 9 litre and 15 litre containers are fitted with a 4-wheel mobility system ensuring stability and skid free movement over all surfaces.

The accessory kit is everything that it should be but we have been extra thoughtful to the user, providing our microlight aluminium tube set and full size combination floor nozzle as standard.

NVP200-2

NVP370-2

| Motor | Power | Airflow | Suction | Capacity | Range | Weight | Dimensions |
|-------|--------------------|----------|---------|-----------------------|-------|----------------------------|--------------------------------------|
| 1200W | 230V AC 50/60Hz | 45 L/sec | 2600mm | 200 = 9L 370 = 15L | 26.8m | 200 = 6.1Kg 370 = 6.4Kg | 355 x 355x 430mm 355 x 355x 480mm |

Character faces as standard. Also available 115V/120V specification.

Hi-Lo

A1

NVQ370-22

NVQ200-22

NVQ200-22 NVQ370-22

The Q series is built to an exacting professional standard, having gained their outstanding specification from more than 20 years of commercial operation.

The deep-drawn steel power head incorporates our patented Microtec noise reduction system; the Twinflo' high performance motor; a Hi/Lo operation control and our exclusive Nucable replaceable plugged cable feature.

Both machines incorporate Tritex primary filtration and are equipped with our skid free mobility and stability package. The NVQ-200 has a capacity of 9 litres with the NVQ-370 increased by 66% to 15 litres.

Both machines have a fully comprehensive accessory kit with nothing spared and including stainless steel in both the tube set and the full size combination floor nozzle.

The NVQ-200 and NVQ-370 will not only impress the users but equally those around them.

NVQ200-22

NVQ370-22

| Motor | Power | Airflow | Suction | Capacity | Range | Weight | Dimensions |
|-------|--------------------|----------|---------|-----------------------|-------|----------------------------|--|
| 1200W | 230V AC 50/60Hz | 45 L/sec | 2600mm | 200 = 9L 370 = 15L | 26.8m | 200 = 7.8Kg 370 = 8.1Kg | 355 x 355 x 435mm 355 x 355 x 485mm |

Our exclusive, easily applied happy face is supplied with each machine, one look tells you it really does make all the difference. Also available 115V/120V specification.

NVQ370T-2

When it comes to extensive carpet care there are two fundamental requirements: a really high performance efficient cleaner design and an efficient powered floor nozzle.

In the NVQ-370 Turbo you have everything that is needed plus numerous additional features.

The power head is all-steel incorporating our patented Microtec sound reduction system and the high performance Twinflo[®] motor system.

The primary Tritex filtration makes sure that what goes in stays in and the container, with its full 15 litre capacity, is equipped with our skid free 4-wheel mobility and stability package.

The TurboElectric power brush system is truly unique with its 24 volt floating brush design automatically adjusting to varying floor surfaces.

A fully comprehensive range of additional accessories is supplied as standard.

| Motor | Power | Airflow | Suction | Capacity | Range | Weight | Dimensions |
|-------|--------------------|----------|---------|----------|-------|--------|----------------------|
| 1200W | 230V AC 50/60Hz | 45 L/sec | 2600mm | 15L | 26.8m | 8.5Kg | 355 x 355 x 485mm |

Our exclusive, easily applied happy face is supplied with each machine, one look tells you it really does make all the difference. Also available 115V/120V specification.

NVQ380-22

The NVQ-380 really does incorporate the best of all worlds in commercial terms. On the top you have the advanced all-steel deep-drawn power head incorporating our Microtec sound reduction system; the superb Twinflo' high performance motor; a Hi/Low control system and the Nucable plugged replaceable cable facility.

The filter system is nothing less than 3-stage Tritex making sure that what goes in stays in. The container is our exclusive Structofoam and this, in itself, is warranted for 3 years providing exceptional strength with no weight penalty. Structofoam is used extensively in our bigger machines having proved itself year in, year out for more than two decades.

The accessory kit is also to an exceptional standard incorporating a comprehensive range of tools.

The end result is a powerful, quiet, exceptionally strong machine that is genuinely hard to beat.

| Motor | Power | Airflow | Suction | Capacity | Range | Weight | Dimensions |
|-------|--------------------|----------|---------|----------|-------|--------|----------------------|
| 1200W | 230V AC 50/60Hz | 45 L/sec | 2600mm | 15L | 26.8m | 9.5Kg | 355 x 355 x 485mm |

Our exclusive, easily applied happy face is supplied with each machine, one look tells you it really does make all the difference. Also available 115V/120V specification.

Aircraft

AVQ380-2

AVQ250-2

AVQ250-2 AVQ380-2

The cleaning of today's fleet of aircraft worldwide has its own special requirements which are embodied into the Aircraft Model range. When you think about the problem, it is enormous.

You've got areas almost as big as a tennis court, housing hundreds of people, covered in seats which form obvious obstructions to normal cleaning, and to cap it all, the aircraft has its own power supply at 115V/400Hz.

The Numatic Aircraft vacuum cleaner range has taken all these considerations into account and are used extensively throughout the world.

There are two models in the range, both rugged and compact, both designed to work effectively in these highly specialised areas, ensuring quick and efficient cleaning, which is of course a prime requirement.

The Aircraft Accessory Kit incorporates 38mm hoses and stainless steel tubesets as standard in order to ensure optimised performance, whilst the compact suction nozzle is able to get in and out of all those nooks and crannies.

There is also an Aircraft RSV (RucSac) model built to the same 110V/400Hz specification - model RSAV130. See page 20 for full specifications.

AVQ250-2

AVQ380-2

| Motor | Power | Airflow | Suction | Capacity | Range | Weight | Dimensions |
|-------|---------------|----------|---------|-----------------------|-------|----------------------------|--|
| 1200W | 115V 400Hz | 45 L/sec | 2600mm | 250 = 9L 380 = 15L | 43.2m | 250 = 8.5Kg 380 = 9.5Kg | 340 x 340 x 395mm 355 x 355 x 485mm |

MFQ370-22

When good is not good enough, the certified microfilter machine provides an exceptional 99.97% efficiency standard but totally without loss of convenience and usability.

Twinflo'

The power head itself has all the technical features of the Q series, low noise levels; Twinflo' performance and Hi/Low operation, but by careful design the HEPA microfilter module has been incorporated into the head design - ensuring that this machine, that often must be used in critical areas, is no larger than the truly convenient size of a standard professional 370.

The accessory kit is comprehensive and to an equally high standard in every respect.

In any application where the dust present might be considered injurious to health, specify the MFQ and be safe.

| Motor | Power | Airflow | Suction | Capacity | Range | Weight | Dimensions |
|-------|--------------------|----------|---------|----------|-------|--------|----------------------|
| 1200W | 230V AC 50/60Hz | 45 L/sec | 2600mm | 12L | 26.8m | 8.9Kg | 355 x 355 x 485mm |

Also available 115V/120V specification.

CRQ370-2

There is, within many specialized operations, the need for a compact vacuum cleaner that can meet the Clean Room Class 100 specification.

In developing the CRQ370 machine we have taken full account of the high filtration requirements whilst, at the same time, ensuring that the machine itself is, in every way, as convenient and user friendly as a standard model.

The 5-stage HEPA filtration design provides a certified operational performance of 100% down to a particle size of 0.1um without loss of power or performance.

The standard accessory kit supplied is complete for normal cleaning operation, but there is also a wide range of specialised tools and accessories should they be required for special uses.

| Motor | Power | Airflow | Suction | Capacity | Range | Weight | Dimensions |
|-------|--------------------|----------|---------|----------|-------|--------|----------------------|
| 1200W | 230V AC 50/60Hz | 45 L/sec | 2600mm | 12L | 26.8m | 9.3Kg | 355 x 355 x 485mm |

Also available 115V/120V specification.

NQS250B-22

The all-steel construction of today's NQS models is where the Numatic story started. We learnt from the 250 that the commercial cleaning business was rough and tough but, having said that, the majority of our early machines are still working 20+ years later.

After all those years the NQS-250 is better than ever, the all-steel deep-drawn power head incorporates our patented Microtec noise reduction system; Twinflo' performance is superb - too good sometimes - so we fitted a Hi/Lo control so you can turn the power down if necessary. The Nucable plugged replaceable cable system is standard as is the blower facility and diffuser attachment.

Filtration is to our Tritex standard and the container is also a single deep-drawn steel pressing with superb 4-wheel mobility and stability.

The standard accessory kit is to the same high standard, even down to stainless steel tubes and full size combination floor nozzle.

Without doubt, yesterday's quality standards to which we have added many improved features - resulting in tomorrow's performance standards. The best of both worlds.

| Motor | Power | Airflow | Suction | Capacity | Range | Weight | Dimensions |
|-------|--------------------|----------|---------|----------|-------|--------|----------------------|
| 1200W | 230V AC 50/60Hz | 45 L/sec | 2600mm | 9L | 26.8m | 8.3Kgs | 340 x 340 x 395mm |

Our exclusive, easily applied happy face is supplied with each machine, one look tells you it really does make all the difference. Also available 115V/120V specification.

NQS350B-22

Not just tough... very tough, this is the model that proved itself to outlast the rest in the most arduous of applications.

The all-steel power head is low noise level; Twinflo' performance; Hi/Lo operation and, in every way, just about as good as you can get, even down to the Nucable plugged replaceable cable system and a standard blower facility.

Filtration is to our Tritex standard with the added advantage of giant Microflo' 15 litre dust bags, easy clean emptying.

The all-steel container is mounted on, but removable from, a rugged tubular chassis which really does give it go-anywhere mobility.

A full range of accessories to an equally high standard is supplied which can be upgraded from the standard 32mm (1 1/4") to 38mm (1 1/2") as required.

| Motor | Power | Airflow | Suction | Capacity | Range | Weight | Dimensions |
|-------|--------------------|----------|---------|----------|-------|---------|----------------------|
| 1200W | 230V AC 50/60Hz | 45 L/sec | 2600mm | 14L | 26.8m | 11.7Kgs | 395 x 350 x 560mm |

Our exclusive, easily applied happy face is supplied with each machine, one look tells you it really does make all the difference. Also available 115V/120V specification.

BB2

NVDQ570-2

NVQ570-22

NVQ570-22 NVDQ570-2

These were the first models designed and manufactured completely in Structofoam and they have proven themselves to be the complete answer to engineering integrity.

Structofoam is our unique material specification that has superb strength and impact resistance allowing machines to be truly rugged yet without a weight penalty.

Power and performance are to the full Twinflo' standard with a choice of one or two-motored specifications. All models are equipped with dual 2-stage primary filter systems as standard, to which can be added giant Microflo' dust bags if required.

The rugged Structofoam container is mounted on 4 x 75mm (3") non-marking, heavy-duty castors and the compact size makes it ideal for numerous trades where it must frequently be moved from place to place such as builders, shop fitters, contractors etc.

The accessory kit is full 38mm (1 1/2") with stainless steel tube sets and even the 400mm (16") floor nozzle is a Structofoam design.

For a middle range machine size, the specification, performance and convenience of the 570's would be difficult to beat.

| Model | Motor | Power | Airflow | Suction | Cap | Range | Weight | Dimensions |
|-------|-------|------------|----------|---------|-----|-------|---------|------------|
| NVQ | 1200W | 230V | 45 L/sec | 2600mm | 23L | 26.8m | 13.8Kgs | 415 x 415 |
| NVDQ | 2400W | AC 50/60Hz | 90 L/sec | 2600mm | 23L | 26.8m | 16.0Kgs | x 645mm |

Also available 115V/120V specification.

NVDQ900-2

NVQ900-22

NVQ900-22 NVDQ900-2

The 900 series sets an entirely new standard in design and construction of industrial vacuum cleaners, built by professionals to ensure high performance coupled with reliability and long service life.

The exciting use of Structofoam throughout this machine really makes it as strong as a truck, whilst its innovative design makes it every bit as easy to use as smaller machines. Power and performance are to the full Twinflo' specification and there is a choice of one or two-motored models with a dual 2-stage primary filter system as standard.

The rugged container is classic Structofoam engineering and the giant wheels and heavy-duty castors provide excellent mobility and transit even in the most demanding applications.

The standard 38mm (1½") accessory kit includes our extra long double swivel hose; stainless steel tubes; 400mm (16") Structofoam floor nozzle and additional useful accessories.

The innovative yet thoroughly practical design of the 900's is really different, but it is that difference that really counts.

| Model | Motor | Power | Airflow | Suction | Cap | Range | Weight | Dimensions |
|-------|-------|------------|----------|---------|-----|-------|---------|------------|
| NVQ | 1200W | 230V | 45 L/sec | 2600mm | 40L | 26.8m | 22.5Kgs | 800 x 490 |
| NVDQ | 2400W | AC 50/60Hz | 90 L/sec | 2600mm | 40L | 26.8m | 25.0Kgs | x 880mm |

Also available 115V/120V specification.

RSV200-1

RSV130-1

RSV130-1/RSV200-1

When it comes to congested environments there can be no doubt that the practical features of the RSV (Ruc Sac Vac) brings with it great advances in convenience cleaning, producing vastly improved results by virtue of the old adage "the right machine for the right job". In many countries Ruc Sac cleaning has become commonplace with substantial improvements in cost effective operation.

The Ruc Sac range of vacuum cleaners comes in two prime sizes, the larger 9-litre 200 and the smaller 6-litre 130, both sharing many of the advanced design features.

Particular attention has been paid to user comfort, convenience and safety with an ergonomically designed, comfortable harness system; lighter weight and lower noise levels.

The RSV's performance is excellent, with the extra large filter system and 2-stage Microflo' disposable dust bags ensuring continuous operation and clean and easy emptying. The standard accessory kit incorporates all that is needed for quick and efficient cleaning of all surfaces.

The RSV130 is also available to a full Aircraft 110V/400Hz specification - model reference RSAV130. See page 13.

| Model | Motor | Power | Airflow | Suction | Cap | Range | Weight | Size |
|--------|-------|------------|----------|---------|-----|-------|--------|-------------------|
| RSV130 | 1100W | 230V | 40 L/sec | 2400mm | 6L | 31.4m | 6.0Kgs | 440 x 360 x 250mm |
| RSV200 | 1100W | AC 50/60Hz | 40 L/sec | 2400mm | 9L | 31.4m | 6.3Kgs | 500 x 360 x 250mm |

Also available 115V/120V specification.

RSV130T-1

There are many situations where large carpeted areas need to be cleaned in a short space of time and the speed with which the operator can achieve this is paramount.

By way of examples, conference centres, ballrooms, bars, restaurants, hotel, showrooms, shops and department stores. All of these high profile establishments need to be able to respond quickly to varying intensities of public presence.

The RSV is, by design, a Ruc Sac vacuum cleaner... you carry it on your back and when equipped with our 24V TurboElectric power brush system it will allow large carpeted areas to be cleaned in the shortest possible time, and really look clean!

Particular attention has been paid to the harness system to ensure user comfort and safety whilst the extra large filter system and 2-stage Microflo' dust bags ensure continuous high performance and clean easy emptying.

The accessory kit contains both power brush and standard accessories to cover the majority of applications.

| Motor | Power | Airflow | Suction | Capacity | Range | Weight | Dimensions |
|-------|--------------------|----------|---------|----------|-------|---------|----------------------|
| 1100W | 230V AC 50/60Hz | 40 L/sec | 2400mm | 6L | 31.4m | 6.4 Kgs | 440 x 360 x 250mm |

Also available 115V/120V specification.
