

Twintec Cable TTQ 1535S

There is an old saying that "small can also be beautiful" and this is particularly true when having to clean floors quickly and effectively in small and sometimes restricted areas.

The TTQ1535S cable machine has been expressly designed to be compact, easy to operate and exceptionally manoeuvrable when in use whilst the oversized transit wheels allow easy movement to and from any specific locations.

The cylinder power brush ensures deep cleaning performance whilst the twin water pickup nozzles either side of the brush roll permit multidirectional operation which is vitally important when cleaning narrow walkways often found in shops and food stores. With the TTQ1535S you can walk in forwards and reverse out backwards without turning and without loss of scrubbing and drying performance.

The swing steering system provides another

simple innovation that really does improve the versatility of the machine allowing full operator directional control.

Professional cleaning performance for those tight areas and smaller applications does not come much better than this.

Brush Motor	Vac Motor	Power	Working Width	Speed	Capacity	Range	Weight	Size
400W	1000W	230V AC 50Hz	350mm	50Hz=1000rpm 60Hz=1200rpm	15L	42m	38Kg	750 x 740 x 480mm

Also available in 115V/120V specification.

Twintec Cable TT3450S TT3450T

Yes, the first really practical, simple to use, combination machine built on a full stainless steel chassis that will revolutionize your whole thinking in terms of cost effective hard floor cleaning.

Here you have a machine that is easy to use, easy to fill, easy to empty, easy to move, easy to transport and easy to service.

The motor and power transmission is well and truly oversized and complimented in everyway by our high performance Twinflo' vacuum collection system and full floating polyurethane semi-parabolic floor nozzle.

Full 30-litre capacity with a choice of single or twin 15-litre dirty water tanks, with a heavy duty 450mm scrubbing head (400mm with pads) which will leave you with clean and dry floors even in the most arduous of applications.

* The patented folding power head system allows for both easy storage, brush changing and transit movement.

TT3450S
Single Tank

TT3450T
Twin Tank

The TT3450 machine is where it all started ... this is the third generation and it shows what can be achieved by staying faithful to good engineering and sound common sense.

Brush Motor	Vac Motor	Power	Diameter	Speed	Capacity	Range	Weight	Size
1000W	1200W	230V AC 50Hz	450mm	50Hz=150rpm 60Hz=180rpm	30L	42m	57Kg	1150 x 1030 x 740mm

Also available in 115V/120V specification.

Twintec Cable TT4550S

When the areas to be cleaned get a little bigger, and quite often the time available gets a little shorter, this is the moment when practical innovation comes into its own.

With plenty of surplus power available within the standard motor and transmission design we have been able to enlarge the brush size and increase the operating efficiency whilst still maintaining a machine that is exceptionally easy to use.

Water capacity is up by 33% and the cleaning path by 20% over the 3450 size and yet to use the machine you would never know.

The 4550 has all the classic practical features of the smaller machines with its full stainless steel chassis, heavy duty motor and gearbox, powerful

'Twinflo' suction system, polyform water tanks, efficient semi-parabolic, polyurethane collection

system and fully adjustable

operating handle and

control centre.

*Rugged, hardworking,
effective and thoroughly reliable
... this is the result of years of
experience and it shows.*

Brush Motor	Vac Motor	Power	Diameter	Speed	Capacity	Range	Weight	Size
1200W	1200W	230V AC 50Hz	550mm	50Hz=150rpm 60Hz=180rpm	40L	42m	68Kg	1150 x 1110 x 850mm

Also available in 115V/120V specification.

Twintec Cable TT6650S

The TT-6650S cable machine is a genuine workhorse providing a truly cost effective answer to big area floor maintenance.

First and foremost the user will find the TT-6650S as easy to use as our smaller machines with the control and operation systems to exactly the same specification, it handles like a dream.

Big capacity polyform tanks provide a full 60-litre capacity to match the exceptionally stable 65cm single brush scrubbing head complimented by an oversized fully floating 970mm polyurethane, semi-parabolic collection nozzle.

The motor and power transmission design is one of the best, well and truly time tested over the years and the vacuum motor system is nothing less than our superb Twinflo' bypass unit, you really do end up with clean, dry floors.

The whole machine is constructed on a full stainless steel chassis, simply nothing to rust, and this, in turn, is running on heavy duty non-marking polyurethane wheels.

If it's big areas, big power and big performance that is needed the TT-6650S will not disappoint you!

Brush Motor	Vac Motor	Power	Diameter	Speed	Capacity	Range	Weight	Size
1200W	1200W	230V AC 50Hz	650mm	50Hz=150rpm 60Hz=180rpm	60L	42m	86Kg	1230 x 1260 x 970mm

Also available in 115V/120V specification.
